

Public Service Announcement

Properly Display Your Home Address

911 addressing is crucial to helping emergency service providers find your home, in the event of an emergency

House Numbers Must Be:

- A minimum of 3” high, 2-1/2” wide and reflective.
- Displayed on the front of every addressed structure.
- If the structure is not clearly visible from the road, and no mailbox is beside the driveway, a sign or number post must be placed to display the number.
- Please make sure your number is not obstructed from the road, and that it is high enough to be clearly visible above high snow banks.

A Properly Displayed Home Address Could Help Save a Life!

THANK YOU FOR HELPING US KEEP OUR COMMUNITY SAFE
