

May 11, 2018

Dear Parents,

Thank you to all of you who sent in notes, supported the luncheon, covered duties or sent a special treat. It was greatly appreciated.

In our social thinking, we have continued to work on showing feelings and talking about them. They enjoy working on this and learning more about our feelings.

We continue to work on our neighborhood unit and will try to finish this up next week. We have talked about what makes up a neighborhood, addresses and creating a neighborhood. The children are really enjoying this unit.

We have finished introducing all of the letters in our Foundations program. We will continue to practice writing letters, words and even simple sentences. It is amazing how far the children have come.

In math, we have talked about doubles. I have included a note talking about Unit 3 in our program and what it covers. It also gives you some ideas of how you can support your child at home. We continue to do our number corner routine and practice telling story problems or creating equations to go along with story problems.

Each year I invite my students to come to my house to have dinner. This is an optional activity, but is always a fun time. If you would like your child to be a part of this please send me a note/email by Tuesday, May 15. I will send more information and the date of the dinner to those who respond and will also include directions to my house. I did not hear from many parents so I decided to extend the deadline until next Tuesday. Please contact me with any questions.

I hope mothers enjoy their gift that was made for them and they have a special day on Sunday. The students worked very hard on this for you.

Upcoming Events:

5/24: Spring Concert 6:30

5/28: Memorial Day- No School

6/13: Last day of school for students

Have a wonderful weekend!
