

Public Service Announcement

PULL TO THE RIGHT FOR SIRENS OR LIGHTS!

If you are being approached by an ambulance, piece of fire apparatus or law enforcement vehicle with lights flashing, or sounding a siren:

- When you can do so safely, pull to the right of the lane of travel
 - Come to a complete stop
- Wait until you are sure all emergency vehicles have passed before re-entering the travel lane.
 - Proceed with caution

If you are approaching a stationary ambulance, piece of fire apparatus or law enforcement vehicle with lights flashing, or sounding a siren:

- Proceed with due caution
- If possible, and safety conditions permit, you must leave an empty lane beside the emergency response vehicle.

THANK YOU FOR HELPING US KEEP OUR COMMUNITY SAFE
