

PULL TO THE RIGHT FOR SIRENS AND LIGHTS

If you are being approached by an ambulance, fire truck or law enforcement vehicle with lights flashing or sounding a siren:

- **When you can do so safely, pull to the right of the lane of travel**
 - **Come to a complete stop!**
- **Wait until you are sure all emergency vehicles have passed before re-entering the travel lane.**

If you are approaching a stationary ambulance, piece of fire apparatus or law enforcement vehicle with lights flashing, or sounding a siren:

- **Proceed with due caution**
- **If possible, and safety conditions permit, you must leave an empty lane beside the emergency response vehicle.**

THANK YOU FOR HELPING US KEEP OUR COMMUNITY SAFE
